9. Reeducation for initial licensure. Applicants who hold nonteaching degrees in content areas taught in public schools may receive initial licensure by completing the professional education requirements at a state-approved program authorized through program approval to recommend applicants for licensure in the approved program area. This reeducation may be completed at the undergraduate or graduate level. The institution with the approved program must document that the applicant's specialty area degree is equivalent to its approved program's specialty area requirements in subdivisions b and c of subsection 1, and recommend the applicant for licensure. 67.1-02-04-01. Alternative access licenses for teacher shortages. Alternative access licenses will be issued under the following conditions:

1. Consideration for alternative access licenses will not be granted until after August first in any year.
2. Alternative access licenses may be issued only in areas where documented shortages of regularly licensed teachers exist as determined by the education standards and practices board. Shortage areas must be determined by the education standards and practices board based upon the ratio of regularly licensed teachers in the state who are qualified for the position to the number of schools with open positions requesting alternative access licensure. In cases where near shortages exist, the board must give additional consideration to whether the hiring school has made a diligent effort to attract and hire regularly licensed teachers.
3. The request for an alternative access license must be initiated by a school. The school board or administration must make the request in writing to the education standards and practices board for consideration of an alternative access license, indicating intent to offer a contract if licensure can be arranged. The request must document that a diligent effort has been made to employ a regularly licensed teacher to fill the position. Documentation of a diligent effort to employ qualified personnel should include information on how and how long the position was advertised, whether schools of education have been contacted in search of applicants, how many qualified applicants applied, how many applicants were interviewed, whether increases in salary or other incentives were offered in an attempt to attract qualified applicants, and whether these incentives are comparable to those offered by other schools of similar size and means.
4. The candidate must write a letter indicating willingness to accept the position if offered.

5. Complete official transcripts of all college work must be sent to the education standards and practices board.
6. The applicant must have proficiency and hold minimum qualifications of a content area bachelor's degree in the content area to be assigned. If an applicant already qualifies for teacher licensure in another content area, alternative access licensure may not be used to teach in a new content area while obtaining new content area requirements.
7. Renewal of alternative access licenses will be reviewed each year and will depend upon the supply of and demand for teachers as evidenced by documented efforts to obtain a licensed person for the position. The alternate access license will be issued only once to complete all testing requirements for regular licensure.
8. Renewal of the alternative access license, if permitted, is contingent upon presentation of at least one-third completion of the requirements for regular licensure as stated in section 67.1-02-02-02 and the North Dakota standards for teacher education program.
9. The fee for the alternative access license is one hundred fifty dollars for each year the license is issued.
